## INFORMATION ABOUT THE POST & RAIL ADJUSTABLE KIT

The Post & Rail Adjustable Kit has been designed and developed specifically to greatly reduce the risk of rotational falls. The most important element of this kit is that it will not break the fence or

risk injury to the horse if hit vertically. The rail is only released when impacted horizontally by the horse. The risk of a resulting rotational fall is thus reduced.

It is essential to follow the recommended dimensions on the fence for the correct function. If the recommended procedure is not correctly followed it may cause the failure of the device.

For your own safety and that of others please note the following step by step advice for correct preparation and installation. It is important that you follow your own health and safety requirements when constructing this kit.

**Ensure that you have all parts of the Post & Rail Adjustable Kit.**

**Be aware of the risk of injury when handling heavy rails, posts and the tools for mounting.**

**WARNING!**

Jumping direction

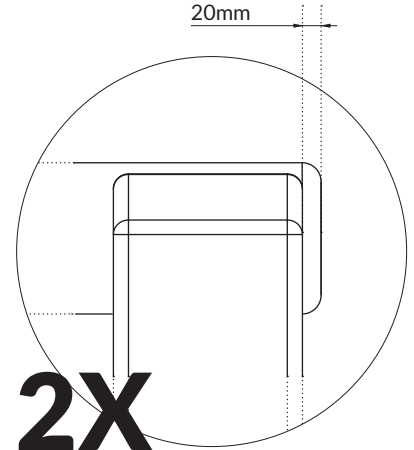

**IMPORTANT**

The posts must be:  
**PARALLEL,  
& FRONTAL ALIGNED &  
SECURED TO THE GROUND**

**IMPORTANT**  
The rail must be:  
**HORIZONTALLY LEVELLED**

The posts must be:  
**VERTICALLY LEVELLED  
TO GRAVITY USING  
A SPIRIT LEVEL OR  
A CONSTRUCTION

The flag is bent when fatigued.

### The advantages of the MIMclip

The MIMclip (F18C) breaks on impact. The flag is bent when the clip is exposed to fatigue. In both cases the clip must be replaced. The top section is connected to the post with a hinge that makes the fence easy to reconstruct. This saves time, guarantees fair and correct judging for riders and contributes to the overall safety of the sport.

### The advantages of the Post & Rail Adjustable Kit

1. It has been produced with safety being the first and foremost important factor.
2. Reduces the possibility of rotational falls.
3. FEI approved number FEI11SWE.
4. Controlled movement of fence during release.
5. Reconstruction time is less than 30 seconds.
6. The parts are made of powder coated steel and can be left outside, no maintenance is required.
7. The very highest quality of product from Sweden.
